

# Sadab Aktar Munshi

CA STUDENT

India  
message@sadabmunshi.online  
www.sadabmunshi.me

## PROFILE

CA Intermediate student focused on accounting fundamentals, financial logic, and building practical Systems. I leverage AI to accelerate development while taking complete ownership of understanding, reviewing, and validating everything I build. Deeply interested in the underlying mechanics of financial systems and dedicated to making them more accessible and transparent.

## EDUCATION

**Chartered Accountancy (CA Intermediate) – Pursuing**

In Progress

*Institute of Chartered Accountants of India (ICAI)*

Currently studying advanced accounting, taxation, financial reporting, auditing principles, and business law.

## WHAT I BUILD

**FinFlow – Personal Finance Management System**

*A dedicated finance System designed to simplify expense tracking and budgeting without requiring external applications.*

- **Comprehensive Tracking:** Full income, expense, and real-time budget management.
- **Multi-Channel Input:** Supports manual entries, camera-based receipt scanning, automated bank PDF data extraction, and voice-to-text transaction logging.
- **Instant Messaging Bots:** Integrated WhatsApp and Telegram bot command functionality for fluid transaction entry on the go.
- **Smart Budget Alerts:** Dynamic color-coded alerts (green, yellow, red) keeping track of spending thresholds.
- **Reporting & Analytics:** Automated monthly financial statements and structured analytical breakdowns.
- **AI Insights:** Intelligent transaction categorization and tailored behavioral spending reports.

## SKILLS

### FINANCIAL & ANALYTICAL

- Interpreting complex financial data & patterns
- Output accuracy & consistency reviews
- Logical problem structuring & execution

### SYSTEMS

- Excel & Google Sheets formulas & pivot reports
- AI-assisted functional System development
- Learning: Python, SQL, and PHP for automation

### PROFESSIONAL

- Clear & precise written communication
- Process documentation & auditing
- Detail-oriented and methodical approach

## HOW I WORK

I treat AI strictly as a System to augment execution, never as a replacement for critical thinking. My methodologies focus entirely on understanding core problems first, evaluating outputs meticulously, and ensuring every solution is accurate, mathematically logical, and reliable. My long-term goal is to build powerful financial expertise and implement practical Systems that provide measurable value.
